INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1942 edition of the Raleigh City Directory.

Confidence in the growth of Raleigh's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Raleigh to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Raleigh Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 33 to 639, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Raleigh, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 56, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Raleigh. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Raleigh, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 641 to 726, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 729 to 856. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Raleigh.

The Raleigh Directory Library

Through the courtesy of the publishers of the Raleigh City Directory, a Directory Library is maintained in the offices of the Raleigh Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,
Publishers.

RALEIGH

"THE PROGRESSIVE CAPITAL OF A PROGRESSIVE STATE"

(Furnished by Raleigh Chamber of Commerce)

STATISTICAL REVIEW

Population

A corporate population of 53,661—16th Federal Census. A 44% increase, 12 years, 1930-42. Population of city and environs, 55,000.

Population within a radius of 50 miles, 700,000 (estimated).

Climate

A mild, healthful climate, an average temperature of 60.3 degrees F. Altitude, 363 feet above sea level. A mean annual rainfall of 46.88 inches.

Education

A recognized center of education.

A State college (branch of the Greater University of North Carolina), including 4 schools—agriculture and forestry, engineering, textile, and the basic division.

St Mary's—Largest Episcopal girls' school in the U. S.

Wake County Statistics—Area, 824 square miles; population, 109,544 (1940 U. S. Census); number of farm families, 7,153; estimated value of crops in 1935, \$10,000,000; value of farms, \$20,140,000.

NORTH CAROLINA STATE CAPITOL

GENERAL VIEW

Raleigh is conveniently located on the main highways between the North and South, in the east-central portion of the state, in rolling country, on the fringe of that section of the Carolinas often referred to as the Piedmont.

Raleigh offers many attractions to the person interested in sports. There are four golf courses, a country club, swimming pools, riding trails. The streams and ponds surrounding Raleigh offer a variety of fishing material. The city is conveniently located to the famous fishing and hunting centers of the coastal section.

Raleigh has twelve hotels serving upwards of 50,000 guests yearly. The rates are reasonable.

Whether one is looking for a central point for distribution, for headquarters or branch-office location, or for some quiet and peaceful place to spend his declining years, Raleigh will have something about it that will please. The town is one of the beauty spots of the state. In Raleigh's business section one will find Colonial architecture surrounded by modern office buildings. Throughout the city are quaint remnants of the old South, interspersed with the modern design of the new South. The people are friendly, courteous and hospitable. Regardless of what one expects of a home town, he will find that everything in Raleigh will fascinate him.

HISTORIC RALEIGH

Raleigh abounds in historic eminence and noteworthy tradition. The first English settlement in America was made at Roanoke Island on the coast of North Carolina by Sir Walter Raleigh. The capital city of the state was named in his honor and in memory of this achievement.

The land upon which Raleigh had its beginning was purchased in 1792 as a location for the establishment of the state capital. The first capitol building was completed in 1794 and destroyed by fire in 1831. The present building, over 100 years old, is a recognized example of Doric architecture with few equals. It is noted for its beauty and design.

The 17th President of the U. S., Andrew Johnson, was born here. This famous old home now stands as a shrine in Pullen Park.

The State Hall of History here, with its collection of North Carolina historical records and important archives, attracts much interest.

Wakefield, the home of Joel Lane, erected in 1760, is owned and preserved by the Carolina Dames. This colonial home was erected in the old town of Bloomsbury, which was the county seat of Wake County, in 1771.

The oldest bank building in North Carolina still stands on the property of Christ Church. It is the present rectory. It was built in 1795 as the State Bank.

Many visitors in Raleigh are likewise interested in monuments and memorials of famous North Carolinians on Capitol Square and in State department buildings.

Three points of special beauty in Raleigh are Dix Hill, Country Club, and the Federal Cemetery.

A CENTER OF EDUCATION

Raleigh, with six colleges and an excellent public school system, has long been recognized as an outstanding center of education.

The North Carolina State College of Agriculture and Engineering was established by legislative enactment in 1889. It is one of the leading agricultural and mechanical colleges in the South. There are 31 major buildings in the plant. It had an enrollment—constantly growing—of approximately 2,500 in 1942. It embraces three schools—Agriculture and Forestry, Engineering and Textile. Also Division of Teacher Education and Basic Division of the College.

CAMPUS AND BUILDING SCENES AT FOUR RALEIGH COLLEGES

Meredith College, a Baptist college for women, was opened in 1897. For many years it was located near the Capitol and now occupies a modern plant completed in 1925, two miles from the city on the Hillsboro Road. Courses are offered in arts, sciences and music. The enrollment in 1941-1942 was 497.

St. Mary's School and Junior College, operated by the Episcopal Church of the Carolinas, was founded in 1842. The highest standards are maintained, with all academic courses fully accredited by the Southern Association. The annual sessions offer the students 35 weeks of classroom work. An average of twenty states are represented in annual enrollment, which, in 1941-1942, was 290 resident, day and special students.

Peace, a junior college for women, owned by the Presbyterians of North Carolina, was opened in 1872. It offers standard and general junior college courses, college preparatory course, and special courses in art, music, home economics and commercial subjects. A number of modern buildings have been added recently, and the enrollment has grown rapidly. In 1941-42 it was 275.

The North Carolina School for the White Blind was established by legislative enactment in 1845. The present plant was completed in 1923 at a cost of \$1,300,000. It is a standard high school and the only one of its type in the U. S. with this rating. It specializes in vocational training.

The well-equipped and modern public school system of Raleigh has 17 buildings, including two high schools. There are also three parochial schools.

King's Business College, Hardbarger's Secretarial School, Hoyle's Secretarial School, and Raleigh School of Commerce are well-organized colleges here for business training.

St. Augustine's College (Episcopal) for colored men and women was opened in 1868. It includes the Bishop Tuttle School and the St. Agnes Training School for Nurses. It has 110 acres of land in the northeast section of the city. St. Agnes Hospital is operated in conjunction with this institution.

The State School for the Negro Deaf and Dumb was established in 1868. A new plant erected at a cost of \$250,000, is located on Highway No. 70, three miles southeast of the city.

Shaw University, founded in 1865, is the oldest institution in the South for the education of colored men and women. The university has 11 buildings. Degrees of A. B. and B. S. are conferred.

THINGS TO SEE IN RALEIGH

STATE CAPITOL BUILDING—Located head Fayetteville St., is considered one of the seven perfect pieces of Doric architecture in the world. Monuments and public memorials on Capitol Square: Senator Z. B. Vance, Gov. Charles B. Aycock, Dr. Charles D. McIver, Henry L. Wyatt, Worth Bagley, George Washington, Women of the Confederacy.

STATE LIBRARY, SUPREME COURT ROOM—Located in State Library building, on E. Morgan St. (Open 9:00 A. M. to 5:00 P. M. Closes at 1:00 P. M. Saturdays during summer.)

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it.

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

REIDSVILLE, N. C.

STOKESDALE, N. C.

NEVERSON, N. C.

WOODLEAF, N. C.

We're Doing A Big Job For National Defense!

GENERAL VIEW OF OUR GREYSTONE PLANT

The Raleigh Granite Company is one of the largest aggregate producers in the Southern States. Organized in 1916, the company has enjoyed a steady growth. It has kept pace with progress—improvements have been made and new plants built that employ the latest methods of operation.

Our country needs crushed stone for camps, airports and other military uses. Practically all of our output is now being used in Defense Construction. We are indeed fortunate that we were able, a short time ago, to enlarge our facilities so that we are able to take care of the tremendous demand for crushed stone by our Government. A steady stream of crushed rock at the rate of 400 tons per hour can be poured from our Greystone Quarry—and our stock pile there has a capacity of 175,000 tons.

FACTS!!**ABOUT CITY DIRECTORY CIRCULATION**

The true value of advertising circulation is circulation consulted —
"User Circulation."

To be exact by actual survey in twenty-four average American cities,
by actual count, each city Directory averaged three and one-half
consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holi-
days when no tests were made.

For every thousand Directories sold there is an average of three
and one-half daily consultations for each book for three hundred
and five days, therefore —

$$1000 \times 3\frac{1}{2} \times 305 = \mathbf{1,067,500}$$

Consultations or "User Circulation"

**The City Directory offers the most Specific Point of Contact

**we're dropping \$3,123,689
in the sack!**

★ Of the money you paid us in 1941, \$3,123,689 was passed along by us to the tax collector.

We're not fussing—it was our share of the necessary cost of government **PLUS THE WAR**. But to give you a better idea of what such a tax bill means, it was

EQUAL TO \$1958 PER AVERAGE EMPLOYEE

EQUAL TO \$ 26 PER AVERAGE CUSTOMER SERVED

EQUAL TO \$8558 FOR EVERY DAY OF THE YEAR

Even at a time when we think in terms of billions —
\$3,123,689 is still a lot of money

City Directory Don't's

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

* * *

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

* * *

DON'T look mad when a customer asks to look at your Directory.

* * *

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

* * *

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

* * *

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

* * *

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.

DEMAND

WHITE'S ICE CREAM*"There IS a difference"***HILL'S
RALEIGH****Directory of Householders, Occupants
of Office Buildings and Other
Business Places****INCLUDING****A Complete Street and Avenue Guide
1942**

Copyright, 1942, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both side of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

(c) denotes colored.
